

International Serum Industry Association

Regional Advisory Teams

1. Two teams of three representatives, one from each of three member companies or associate members, will be selected by the CEO and approved by the Board to focus on Association issues in two global regions – North America and Europe. Other regions can be added at the sole discretion of the Board and team members serve at the pleasure of the Board and CEO. At least one member of each team must be working with and be familiar with regulatory matters. The members of the team are to be physically located in the region for which they have responsibility. These teams will act as support staff to the CEO and participate as needed.
2. The teams will be charged with:
 - a. Focusing on keeping abreast of the changes of regulatory status in the regions and bringing these changes or pending changes to the attention of the CEO
 - b. Being the “eyes and ears” of the Association in the regions to make certain all issues affecting our members are raised to the Association’s attention. Actions/solutions to the issues raised must be developed in association with the CEO and Board of Directors as they relate to any official position taken by the ISIA.
 - c. Providing to the CEO contact information to various regulators, news media, scientific associations, peer associations, politicians, etc. which may require direct contact.
 - d. Assisting in the formulation of travel plans, making meeting arrangements and participating in visits as requested by the CEO.
 - e. Making certain that they or others do not pretend to represent the ISIA or its position without official authorization from the CEO
 - f. Assisting in other ways as requested by the CEO.
3. Each team will have a leader who has the responsibility to coordinate activities and conduct team meetings and report as needed to the CEO. On occasion the leader may be asked to participate in Board meetings during which regional issues of importance will be discussed.
