

## **Robyn Kisrow** **ISIA CEO**

Robyn Kisrow brings over 23 years of experience in the life sciences to her role as CEO of ISIA. She has served in leadership roles in both privately held and public companies, including BioIVT, Abcam, HemaCare/Charles River Laboratories, and MilliporeSigma. Her professional experience spans commercial and technical roles, including sales management and enablement, business development and strategy, technical/specialty sales, product and field marketing, EHS/compliance, and quality control.

Throughout her career, she has established and implemented best-in-class business standards for working in complex, highly regulated environments.

Robyn holds an MBA from the University of North Texas and a BS in Biology from Southeast Missouri State University. She resides in the Dallas/Fort Worth metroplex in Texas with her husband and daughter.
